

EDUCATION

General Assembly — *Remote*

Software Engineering Immersive – Graduation: 06/2024

- Completed a 12-week, 400+ hour Full-Stack Software Engineering immersive program focused on product development, object-oriented programming, MVC frameworks, data modeling, and team collaboration. Developed frontend, backend, and full-stack applications independently and in teams.

McDaniel College — Westminster, Maryland

Bachelor of Arts, Psychology – August 2017 - May 2021

TECHNICAL SKILLS

Languages - JavaScript, Python, HTML5, CSS3

Frameworks and Libraries - React, Node.js, Express.js, Django, Mongoose, ReactRouter

Databases - PostgreSQL, MongoDB, MySQL

Authentication and Security: JWT (JSON Web Token), Google OAuth

Tools: Postman, Docker, Netlify, Trello, Whimsical, Git, GitHub, Slack, Zoom, Microsoft Office (Word, Excel, PowerPoint, etc.)

SOFTWARE DEVELOPMENT PROJECTS

March 2024 - Jun 2024

Tech Haven | [Website](#) | *React, Express.js, Node.js, JWT Auth, MongoDB, Mongoose, Javascript, CSS, HTML5*

- A MERN stack web app that enables users to buy and sell used tech devices, ensuring seamless transactions and a high-quality user experience.
- Created the front-end with React.js, handling API data with JavaScript array methods, testing API routes with Postman, and managing Git for version control until deployment.

Daily Diary | [Website](#) | *Django, Python, MongoDB, PostgreSQL, CSS, HTML5*

- Developed a Django personal diary app for securely managing daily entries.
- Built an MVP with Trello, wireframed with Whimsical, and used Python, Django, PostgreSQL, and HTML/CSS for full-stack CRUD operations.
- Implemented secure user authentication with Django's built-in system for user profile management.

VeganRify | [Website](#) | *Node.js, Express, MongoDB, Google OAuth, Docker, Javascript, CSS, HTML5*

- Developed a web app using the MEN stack (MongoDB, Express, React.js, Node.js) that verifies if products are vegan, featuring full CRUD operations, tested with Postman, and a card generator using JavaScript, CSS3, and HTML5.
- Implemented OAuth 2.0 for secure user authentication, enabling signup, login, profile management, and product feedback.

Guess the Country of the Flag | [Website](#) | *Javascript, CSS3, HTML5*

- An educational trivia game app for fun and engaging learning experience through multiple-choice questions and challenges.
- MEN-stack CRUD application with Google OAuth authentication and authorization

PROFESSIONAL EXPERIENCE

General Assembly, Remote — *Engineering Fellow*

March 2024 - Present

- Full-stack software engineering immersive student in an intensive, 12-week, 420+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects.

Stepping Stones Behavioral Solutions, LLC, *Registered Behavioral Technician*

Indianapolis, IN

Sep 2023 - Mar 2024

- Recorded accurate and detailed data on client behaviors using data recording software and tools for behavioral analysis.
- Analyzed, interpreted, and utilized client data to track progress & outcomes.
- Communicated with clients, families, and supervisors to coordinate care, report progress, and modify treatment plans.
